**New York** – If you're like the rest of us guys over 50; you probably already know the truth... "Viagra" doesn't work! Simply getting an erection doesn't fix the problem" says Dr. Bassam Damaj, chief scientific officer at the world famous Innovus Pharma Laboratories.

As we get older, we need more help in bed. Not only does our desire fade; but erections can be soft or feeble, one of the main complaints with Viagra®. Besides, Viagra® is expensive... costing as much as \$50.00 a pill.

Plus, it does nothing to stimulate your brain to want sex. "I don't care what you take, if you aren't interested in sex, you can't get or keep an erection. It's physiologically impossible," said Dr. Damaj.

## MADE JUST FOR MEN OVER 50

But now, for the first time ever, there's a pill made just for older men. It's called Vesele®. A new pill that helps you get an erection by stimulating your body and your brainwaves. So Vesele® can work even when nothing else worked before.

The new men's pill is not a drug. It's something completely different

Because you don't need a prescription for Vesele®, sales are exploding. The maker just can't produce enough of it to keep up with demand. Even doctors are having a tough time getting their hands on it. So what's all the fuss about?

## WORKS ON YOUR HEAD AND YOUR BODY

The new formula takes on erectile problems with a whole new twist. It doesn't just address the physical problems of getting older; it works on the mental part of sex too. Unlike Viagra®, the new pill stimulates your sexual brain chemistry as well. Actually helping you regain the passion and burning desire you had for your partner again. So you will want sex with the hunger and stamina of a 25-year-old.

## THE BRAIN/ERECTION CONNECTION

Vesele takes off where Viagra® only begins. Thanks to a discovery made by 3 Nobel-Prize winning scientists; Vesele® has become the first ever patented supplement to harden you and your libido. So you regain your desire as well as the ability to act on it.

In a 16-week clinical study; scientists from the U.S.A. joined forces to prove Nitric Oxide's effects on the cardio vascular system. They showed that Nitric Oxide could not only increase your ability to get an erection, it would also work on your brainwaves to stimulate your desire for sex. The results were remarkable and published in the world's most respected medical journals.

## THE SCIENCE OF SEX

The study asked men, 45 to 65 years old to take the main ingredient in Vesele® once a day. Then they were instructed not to change the way they eat or exercise but to take Vesele® twice a day. **What happened next was remarkable.** Virtually every man in the study who took Vesele® twice a day reported a huge difference in their desire for sex. In layman's terms, they were horny again. They also experienced harder erections that lasted for almost 20 minutes. The placebo controlled group (who received sugar pills) mostly saw no difference.

## SUPPLY LIMITED BY OVERWHELMING DEMAND

"Once we saw the results we knew we had a game-changer said Dr. Damaj. We get hundreds of calls a day from people begging us for a bottle. It's been crazy. We try to meet the crushing demand for Vesele®."

## DOCTOR: "VESELE® PASSED THE TEST"

"As a doctor, I've studied the effectiveness of Nitric Oxide on the body and the brain. I'm impressed by the way it increases cerebral and penile blood flow. The result is evident in the creation of Vesele®. It's sure-fire proof that the mind/body connection is unbeatable when achieving and maintaining an erection and the results
