INM — A pill that relieves joint pain and stiffness in 7 days without side effects has been used safely in Germany for 53 years. It is now available in the United States.

This pill contains an active ingredient that not only relieves pain quickly, but also works to rebuild damaged cartilage between bones for greater range of motion.

It can cut your pain relief costs up to 82% less than using pain relief drugs and pain relief cream and heat products.

An improved version of this pill is now being offered in the United States under the brand name FlexJointPlus.

FlexJointPlus relieves joint pain, back pain, neck pain, carpal tunnel, sprains, strains, sports injuries, and more. With daily use, users can expect to feel 24-hour relief.

The active ingredient in FlexJointPlus comes from a natural source. It is both safe and healthy. In 53 years of recorded medical use, there have been no reported harmful side effects.

"Relief in pain and stiffness is felt in as quickly as 7 days," said Roger Lewis, Chief Researcher for FlexJointPlus.

"And with regular use, you can expect even more reduction in the following 30-60 days," added Lewis.

WHAT SCIENTISTS DISCOVERED

FlexJointPlus contains an amazing compound with a known ability to rebuild damaged cartilage and ligaments associated with joint pain.

This compound is not a drug. It is the active ingredient in FlexJointPlus.

Studies show it naturally reduces inflammation while repairing bone and cartilage in the joint.

Many joint pain sufferers see an increase in flexibility and mobility. Others are able to get back to doing the things they love.

"My left hip joint was so stiff and painful I could barely get to sleep at night," says Amanda Johnson of Chatham, ON. "but since using FlexJointPlus my pain and stiffness has been relieved, and I am now able to get a good night's rest again."

With so much positive feedback, it's easy to see why sales for this newly approved joint pain pill continue to climb every day.

IMPRESSIVE BENEFITS FOR JOINT PAIN SUFFERERS

The 8 week clinical study was carried out by scientists across six different clinic sites in Germany. The results were published in the *Journal of Arthritis* in July 2014.

The study involved patients with a variety of joint pain conditions associated with osteoarthritis. They were not instructed to change their daily routines. They were only told to take FlexJointPlus' active ingredient every day.

Approved by U.S. Doctors: U.S. medical doctors are now recommending the powerful new pill FlexJointPlus. Participants in clinical studies reported noticeable results in just days.

The results were incredible.

Taking FlexJointPlus' active ingredient just once daily significantly reduced both joint pain and stiffness compared to placebo at 7, 30, and 60 days.

In fact, many patients experienced greater than 50% reduction in pain and stiffness at 60 days.

They also enjoyed an improvement in stiffness when first getting out of the bed in the morning, and an improvement in pain when doing light household chores.

With these studies medical doctors and researchers have now proven FlexJointPlus to be a clinically effective treatment for reducing pain and stiffness associated with joint and connective tissue disorders, especially osteoarthritis.

The findings are impressive, no doubt, but results will vary.

But with results like these it's easy to see why thousands of callers are jamming the phone lines trying to get their hands on FlexJointPlus.

HOW IT REBUILDS DAMAGED JOINTS

Scientists have discovered that after the age of 40 the body is no longer able to efficiently repair bone and cartilage in the joint. This results in deterioration and inflammation in the joint, leading to pain.

The natural compound found in FlexJointPlus contains the necessary ingredients needed for the body to rebuild damaged bone and cartilage.

This compound is known as 'NEM'®.

"Essentially, it contains the same elements found in your joints, which are needed to repair and rebuild cartilage and ligaments," explains Dr. Sarah Brewer, renowned Author and graduate from Cambridge University.

There also have been no adverse side effects reported with the use of NEM®.

This is a bonus for arthritis sufferers who have been taking prescription and over the counter medications that can cause severe gastric irritation over time, like NSAIDs.

This seems to be another reason why FlexJointPlus'

release has triggered such a frenzy of sales.

RECOMMENDED BY U.S. MEDICAL DOCTORS

"Based on my 20 years of experience treating people with osteoarthritis, FlexJointPlus receives my highest recommendation to any person suffering from joint pain and stiffness," said Dr. David Vallance, Rheumatologist from Ann Arbor, MI.

"One of my patients taking FlexJointPlus has reported a significant decrease in pain when going up or down stairs, sitting with legs bent for an extended period of time, and even getting up from a seated position," said Dr. Richard Gibson, chiropractor from Windsor, ON.

"I use FlexJointPlus everyday for my stiff and aching joints. I also have my wife and daughter taking it regularly as well," said Dr. Oozer, G.P. from Lasalle, CA.

DOUBLE YOUR MONEY BACK GUARANTEE

Users of FlexJointPlus report incredible results. That's why it comes with an equally incredible guarantee.

"There's only one reason why we can offer such a guarantee," said Kyle Harris, Founder of FlexJointPlus. "It works for those who use it. It's as simple as that," he added.

Here's how it works: Take the pill exactly as directed. Then follow the simple instructions. You must be thrilled and amazed as your joint pain and stiffness greatly improves.

Otherwise, return the product as directed and you'll receive double your money back!

BILLINGS GAZETTE READERS GET SPECIAL DISCOUNT SUPPLY

This is the official release of FlexJointPlus in Montana. And so, the company is offering a special discount supply to any person who calls within the next 48 hours.

A Regional Order Hotline has been set up for local readers to call. This gives everyone an equal chance to try FlexJointPlus.

Starting at 7:00 am today, the order hotline will be open for 48-hours. All you have to do is call TOLL FREE **1-800-434-8653**. The company will do the rest

IMPORTANT: Due to FlexJointPlus' recent media exposure, phone lines are often busy. If you call, and do not immediately get through, please be patient and call back.

Current supplies of FlexJointPlus are limited. So consumers that don't get through to the order hotline within the next 48-hours will have to wait until more inventory is produced. This could take as long as six weeks.

X-RAYS PROVE IT WORKS

BEFORE: Bone on bone knee pain caused by damaged joint cartilage.

AFTER: FlexJointPlus' active ingredient rebuilds healthy cartilage in the joint.
