

Seniors Can Collect \$1,038 Per Week
From This Unusual "Side Job"

THE PERFECT RETIREMENT BUSINESS

- No Employees...
- No Regulations...
- Takes Less Than Four Hours Per Week...

"My annual payouts now exceed \$54,000." – Dan Morgan

Dear Reader,

It's the one dirty secret *nobody* likes to talk about...

America boasts the world's richest economy, the most innovative businesses and dozens of the best universities on Earth...

Yet 80% of all Americans say they're "not very confident" they'll be able to retire comfortably!

Then again, how could they?

The average savings for those near retirement rings in at a measly \$12,000.

It's a joke... it's a shame... and it doesn't have to be this way.

If YOU are not absolutely certain you'll have the retirement you always wanted, you need to hear my story today. And even if you're already living comfortably, you'll want to listen in too.

Because right now, a small group of people is collecting extra "paychecks" every week... thanks to a surprising income source none of them ever expected to find.

This extra money involves a special kind of cash-generating "pastime" where regular folks – including you – can rake in \$1,038 or more each week... and easily clear \$54,000 per year...

Turn to page 2 to continue ➡

That's whether you're just starting out... you're thinking about retiring... or you're already retired today.

I call this plan "the Perfect Retirement Business" because you don't need any experience with sales or marketing...

You don't have to shell out money for a storefront, inventory or even a website...

And it doesn't involve any phony online businesses or those "programs" you see on infomercials late at night.

Word is already starting to spread about the awesome power of this kind of income-generating plan...

USA Today says it's "a financial security blanket" for folks "worried about the economy."

And *Money* magazine reports these cash payments "can be helpful in supplementing your income in retirement," or they can be invested "and become a huge driver of future returns."

To be clear, this opportunity has nothing to do with driving strangers around in your car, renting out an extra bedroom or anything like that...

And I can promise... you won't ever have to call or meet with clients or sell anything to friends or

family. Who wants to get involved in THAT kind of nonsense?

But here's the thing I love the most about the Perfect Retirement Business...

You can start collecting a lifelong stream of these weekly payouts less than 30 days from today.

In fact, right now, I'm looking at **more than 60 big payouts set to come over the next 12 months...**

That's one every six days (or about a paycheck every week)... adding up to as much as an extra \$54,000 per year.

Just pick out which specific opportunities work best for your situation... and then this simple strategy pretty much runs itself.

Every Week, Ordinary Folks Are Getting the Chance to Collect Extra \$450, \$825, \$1,123 Paychecks.

Now, not everyone wants to work until they're 75 years old.

And not everybody wants to downsize and cut back in retirement.

But I can guarantee you one thing...

Everyone LOVES the idea of getting a raise.

And with the Perfect Retirement Business, it's almost like you'll be making "double time" at your current job...

Or if you're already retired, it's like receiving a second... even bigger... Social Security or pension check.

Best of all, this "work" is so simple... literally anyone could do it...

For example...

- Ronald Brewer, a Baltimore blue-collar worker, was making only about \$25 an hour at his primary job.

But before he knew it, with the same type of strategy I use for my Perfect Retirement Business, he started collecting checks averaging **an estimated \$450 per week...** all while it ran on autopilot.

- Anne Scott, an auditor from New York who never made more than \$50K a year, got involved with the same type of strategy.

Yet despite her modest salary, she was soon collecting a steady stream of checks worth **more than \$825 a week...** while barely lifting a finger.

- And Chicago-based secretary Jill Greene used this special technique to start raking in **an extra \$1,123 a week...** essentially without doing an extra lick of work.

Ron, Anne and Jill all made this extra cash *without* hiring employees, without following any complicated regulations and *without* changing their jobs.

If you have a computer, an internet connection, a small starting stake and just a couple of minutes of time, you can get started today.

Imagine opening up your laptop on a Friday afternoon and seeing an automatic **\$450... \$825... even \$1,123** or more deposited into your account...

With your own Perfect Retirement Business, you could start collecting at least four checks every month. For example...

JANUARY

SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30	31				

You can get paid in **January** (maybe just in time to cover holiday bills or pick up a Valentine's Day gift)...

MAY

SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
	1	2	3	4	5	6
7	8	9	10	11	12	13
14	15	16	17	18	19	20
21	22	23	24	25	26	27
28	29	30	31			

Skipping ahead to **May**, you might use your five bonus cash payments and splurge for a special summer trip...

SEPTEMBER

SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
					1	2
3	4	5	6	7	8	9
10	11	12	13	14	15	16
17	18	19	20	21	22	23
24	25	26	27	28	29	30

You could collect another five checks in **September**, and maybe help out a loved one with tuition or plan a fall getaway...

DECEMBER

SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
					1	2
3	4	5	6	7	8	9
10	11	12	13	14	15	16
17	18	19	20	21	22	23
24	25	26	27	28	29	30
31						

To close out the year, you could receive four more payouts in **December...** (Who can't use some extra cash around the holidays?)

All told, you could be receiving anywhere from four to six extra payouts per month, every month, all year long.

If you follow our suggested blueprint, you could get paid at least once every week, with total payouts adding up to \$54,000 per year or more.

You can start with your own Perfect Retirement Business plan today... literally within the next few hours.

It's as easy as a few clicks of your mouse.

Then, your first cash payout could arrive in your bank account **as soon as October 16, 2017.**

The bottom line is this...

If you're looking to make a significant amount of extra money while doing hardly a lick of work, I think this Perfect Retirement Business is the ideal solution for you.

So let me explain what led me to this lucrative income source.

Baby Boomers' Most Shameful Confessions

My name is Marc Lichtenfeld.

I'm the Chief Income Strategist at one of the nation's leading publishing companies, The Oxford Club... an organization with more than 150,000 Members around the world.

Over the last 25-plus years, we've been dedicated to helping our Members take control of their finances, dramatically increase their nest eggs and achieve financial independence.

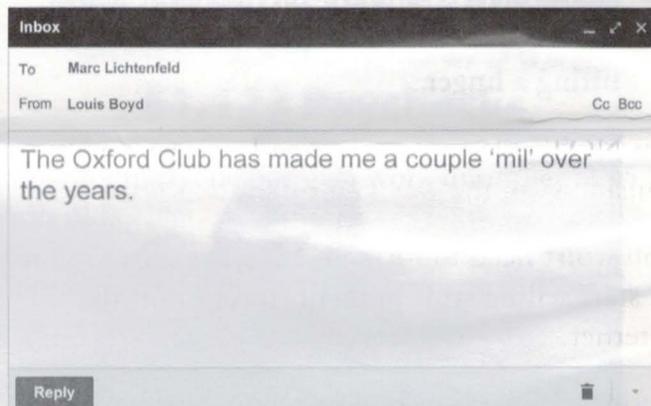

I've enjoyed working here for a decade now... And I've seen our ideas help make many of our Oxford Club Members a great deal of money.

Like Nora Weaver, who says that we've helped her make \$100,000 in the past few years...

And Louis Boyd, who told us, "The Oxford Club has made me a couple 'mil' over the years."

But from many other Members, I've heard about a common problem again and again.

That as retirement's drawing closer, they'll NEVER be able to afford the kind of "golden years" they've always dreamed about.

Countless baby boomers have personally told me they're "worried about making my nest egg last"... or that they're afraid "health issues will eat up my savings"... or that they "don't want to dig into my IRA so soon."

Maybe you've crunched your own numbers too... and found you're going to fall short?

Listen, we all know it's easy to delay. It's so easy to say "later."

It's simply human nature.

But the good news is that IT'S NOT TOO LATE to change your course and take control of your future.

Because as I kept on hearing these heartbreaking stories, I resolved to find a way to change our readers' situations... and change them fast.

And by fast, I mean you could start collecting new income just days from now.

I believe YOU can do it... no matter your current retirement situation... if you're ready to take action today...

And that's what I love about the Perfect Retirement Business strategy...

"The Perfect Retirement Business" Revealed

I'm NOT going to recommend you start a "business" in the way you might be thinking...

You won't need to form an LLC, create a product or start selling stuff in retail stores or on the internet.

Besides, it's hard to build a whole new business from scratch... unless you have a great idea and the passion to work 100 hours per week.

Rather, with the Perfect Retirement Business plan, what you do is tap into already successful businesses and get a piece of the action.

That's how you make easy money.

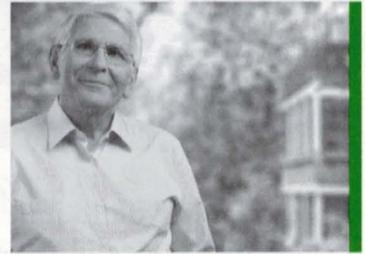

It's a beautiful thing. The cash just keeps pouring in like clockwork... every five to seven days.

The checks can vary, anywhere from around \$100... up to \$500... or \$1,100 and even more, depending on how much you put in. Take a look...

- Tennis buff Pete Butler of Islip, New York, has collected checks worth **more than \$4,704 so far...**

- Jim Morgan of San Jose, California, a father of two, is about to pocket **another check for more than \$941...**

- And Liberal Arts grad Mary Oriani of Butler, Missouri, is on track to make **an extra \$3,500** over the next 12 months...

Now, what you do with this extra cash, of course, is up to you...

You could just sock away your newfound money to build a nest egg for the future...

You could use this second income to help pay for bills, treat your family to a special vacation, or even help out a favorite cause...

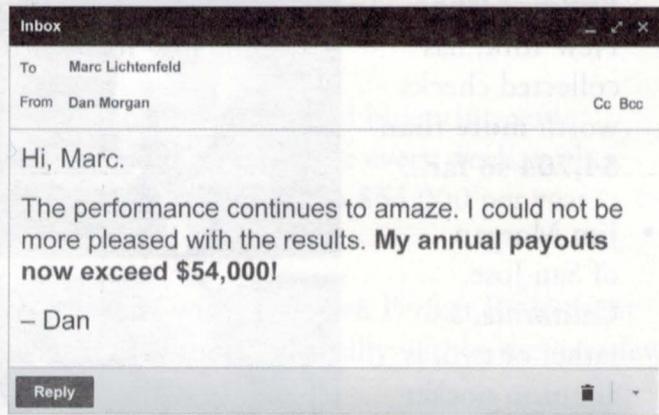

Or you could just invest it over and over again, and watch your wealth grow even further.

Simply set yourself up by using the five-minute strategy outlined on the coming pages – and you'll see the cash start pouring into your bank account...

I've received emails from people like Brad Nichols and Stuart Gillen, who were thankful to be collecting checks averaging **anywhere from \$480 to \$549 per week**.

And Dan Morgan recently wrote, "The performance continues to amaze. I could not be more pleased with the results. **My annual**

payouts now exceed \$54,000.”

Today, I'd like you to join them.

It doesn't matter if you want an extra \$480 a week (like Brad)... \$549 a week (like Stuart)... or \$1,038 a week (like Dan)...

Whatever your particular situation may be, I'm going to show you how you can get started with your own Perfect Retirement Business in the next few minutes.

I've created a simple "kit" that gives you everything you need to get started. And I'd like to mail one to you - for free, shipping included - in the next few minutes.

Best of all, my research team and I have just introduced our breakthrough income-generating **Retirement Cash Calendar** to help you keep track of the cash coming in.

RETIREMENT CASH CALENDAR						
SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
30	1	2 \$	3	4	5	6
7	8	9	10	11	12 \$	13
14	15	16	17 \$	18	19	20
21	22 \$	23	24	25	26	27
28	29	30 \$	31	1	2	3

You'll get that free as part of your Perfect Retirement Business welcome kit too.

It shows the specific upcoming dates when you can collect passive cash... simply by tapping into other businesses' bottom-line profits.

Imagine what your payout schedule could look like over the coming calendar years if you follow my simple instructions...

Your Own Retirement Cash Calendar

For example, I know of one baby boomer, Carl Baker, who recently set himself up using my suggested plan.

He's worked hard... built up a modest nest egg... but Carl's realizing he's going to need some extra income so he can retire "on his own terms," as he told me.

He's received my Perfect Retirement Business kit.

And now, he's looking at a steady new stream of year-round paychecks.

Every January, he'll receive a total of five checks on five separate payout dates...

With my plan, he'll receive four more

JANUARY						
SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
1	2	3	4	5	6	7 \$
8	9	10	11	12 \$	13	14
15	16	17 \$	18	19	20	21
22	23	24	25 \$	26	27	28 \$
29	30 \$	31				

checks in February, four in March and four again in April. Jump ahead to May, and Carl's ready to collect five payouts...

It goes on and on.
Payout after payout.
Another five checks in August...

Four checks in September...

And another four checks in December...

All told, just like Carl, you could collect dozens of checks over the next 12 months...

While you're doing nothing more than simply sitting back and watching the money pile up.

Carl told me it took him "just about five minutes" to set up his new income stream. And that's the last time he'll need to lift a finger.

To take advantage of this opportunity, you just have to make the few simple changes that I'm about to show you.

So let's take a look at where all this cash is coming from... and the secret behind this strategy.

My Million-Dollar "Eureka Moment"

Over a 20-year career, I've worked as an analyst inside one of Wall Street's most successful firms...

I've executed multimillion-dollar transactions on frenzied trading desks...

I've headed research departments. My work has appeared in *Forbes*, Bloomberg and *The Wall Street Journal*. I've appeared on CNBC more times than I can count...

I've written a best-selling book on retirement income strategies... and it was recently named "Book of the Year" by the Institute for Financial Literacy.

Today, as the Chief Income Strategist at The Oxford Club, I help readers make good money... without the insane risks that doom many other folks.

Yet the key to my breakthrough actually goes back generations...

My grandfather was a partner in a family-run brokerage named McMahan, Lichtenfeld & Co., which owned a seat on the New York Stock Exchange.

Grandpa taught me that everyone looking toward retirement wants the same thing...

A simple system for making their money work as hard as they have.

So when I started my own career in finance, I set out to create a straightforward plan...

One that would allow every participant to never have to worry about money in retirement... and have plenty of time to enjoy that freedom too.

In other words, the Perfect Retirement Business. I immediately ruled out any sort of side job or labor-intensive small business. That just means you'll wind up working more... not less!

The eureka moment finally came when I made a

discovery my grandpa would have loved...

One that allows you to invest a surprisingly small amount of money, and at the same time, works to ensure you'll always have a steady, **reliable and passive income stream**...

Regardless of your current job, your past career or any other circumstances.

I knew at that moment that I'd finally zeroed in on the Perfect Retirement Business that I'd been working toward for years.

And I realized it could not only secure my own financial future... but also the futures of millions of people who are worried about retirement.

So... what exactly was it that I discovered that day?

The Retirement Income Secret Revealed

The key to my Perfect Retirement Business... and more specifically, the Retirement Cash Calendar... involves a special way that you can take a cut of certain companies' bottom line profits.

RETIREMENT CASH CALENDAR						
1	2	3	4	5	6	7
		\$				
7	8	9	10	11	12	13
						\$
14	15	16	17	18	19	20
			\$			
21	22	23	24	25	26	27
		\$				
28	29	30	31			
		\$				

But not just any companies...

To be eligible...

- ✓ **The companies have to give a very specific percentage of their earnings to participants...**
- ✓ **They have to maintain a track record of increasing those payments significantly... year after year... for 10 years or more...**
- ✓ **And they have to maintain a healthy cash flow to ensure they can keep raising those payments year after year.**

In short, they need to prove that they are extremely strong financially...

Enough so that they can continue increasing YOUR cash payouts month after month, year after year.

And now... I've put the best moneymaking opportunities for you into my model Retirement Cash Calendar.

The secret to its success is including only a small handful (out of more than 43,000 publicly traded companies) that pass my screening.

If a company passes this strict screening process, it's producing enough profits to pay you out more and more each year during retirement. Risky businesses simply do NOT make it through.

Now listen up closely, because this is the part where it gets really good...

In return for your small investments in these businesses, they're happy (very happy) to reward you with steady streams of cash – funneled straight from their bottom lines.

Every investment I'll recommend to you is selected for maximum reliable payouts...

For example, if you follow my recommended plan, you could receive as much as...

- ✓ **\$1,170 from a company that keeps the USA's heartland in business on March 15...**

- ✓ \$2,400 from one of America's most trustworthy financial companies on April 28...
- ✓ \$2,790 from perhaps the nation's strongest healthcare business on August 15...
- ✓ And many, MANY more.

My Retirement Cash Calendar will help you set up whatever sort of payout schedule works best for your own particular situation...

And then it will let you keep track of every day you are set to get paid.

You'll collect regardless of whether the overall economy is going up, down or sideways...

Regardless of unemployment or interest rate statistics...

And regardless of what crazy events might unfold in Washington over the next few years.

Of course, all investments carry risk and nothing is guaranteed – but there's no better way to secure additional income than with a strategy like this.

What's more, the Retirement Cash Calendar payout dates work together to create a symphony of continuous income (as you'll see in a minute)...

You might start with 12 payouts per year... move up to 20... then to 36... and you might even end up collecting 52 payouts a year – one for each week.

Bottom line...

This could well be the single most powerful income opportunity for "safe money" investors I've ever come across.

And I'd like to put this calendar in your hands today.

A Look at Who's "Funding Your Retirement"

I have three cash generators in particular I'm looking at right now...

Together, they can help get you on your way to collecting an extra \$54K over the next 12 months.

Let's take a closer look at a few of these top handpicked opportunities I'm extremely bullish on...

Retirement Cash Generator #1 "The Heartbeat of the Internet"

For my first opportunity, it's safe to say the internet simply could not run without this company. Cash is flooding in, so no wonder it's raised its payouts every year since 2011. 68-year-old Charlotte Baker from Minnesota has recently collected payouts of more than \$450 in April, July, October and January.

Even better, if the Trump administration makes good on its promise to give corporations a tax holiday, this company stands to bring home a sudden \$55.8 billion windfall... and potentially use it to hand YOU four years' worth of paychecks – maybe \$7,200 or more.

Retirement Cash Generator #2 "Satisfies Your Appetite for Income"

This second business has been raising its payouts for years, and it just acquired two of the best-known companies in the food industry – one of the fastest-growing segments of consumer spending right now.

Last year, the company paid out \$77 million to investors. Yet management is committed to rewarding them even more – like

former veterinary student Carla Pope from Connecticut, who's expecting individual checks for more than \$740 each in the coming months. I believe you should do very well with this play.

Retirement Cash Generator #3 "Put the D.O.D. to Work for You"

This defense contractor is perfect for your Retirement Cash Calendar. First of all, it paid out \$864 million last year on cash flow of \$1.9 billion. It just locked in a \$450 million contract to upgrade the Navy's secure communications network. And the future looks bright...

It's raised payouts at an average rate of 9.75% over the past five years. That's enough to **triple your cash income** every 12 years.

One guy we know of, Air Force man Tim Kevins, has already collected checks for more than \$651 in January, April, July and October.

This is exactly the kind of payout pattern I look for.

Keep in mind, these are just a few examples of the powerful income generators that form the crux of the Retirement Cash Calendar.

Decide to put just these three businesses to work for yourself today... and you'll collect 11 checks

this year. That's an average of nearly one check per month... for as long as you choose... and in the amount you choose.

Now, what if you want to "up the ante" and get paid more often?

No problem.

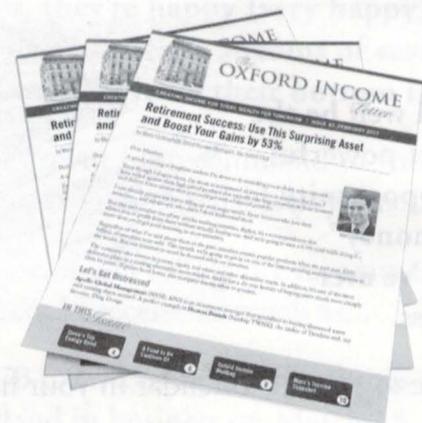

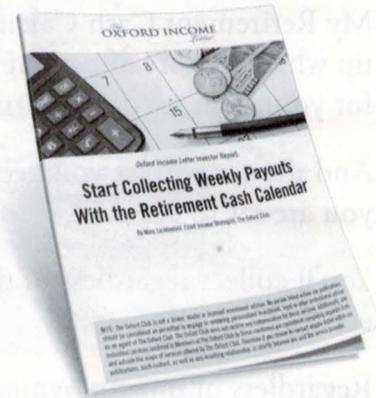

I've found enough companies to pay Perfect Retirement Business participants that you can collect on 52 weeks per year of work-free income.

So how do you get started?

Simple. I've laid out all the details in my free new research report **"Start Collecting Weekly Payouts With the Retirement Cash Calendar."**

In it, you'll discover how to use my blueprint to get going with your own Retirement Cash Calendar... how you could collect your first check just days from today... and all the details on my cash-gushing opportunities.

You'll get all the facts just moments from now, simply by taking a trial run of my popular research publication *The Oxford Income Letter*.

And the Retirement Cash Calendar is just a small part of everything my readers get.

There are so many more exciting benefits for income-seekers in *The Oxford Income Letter*...

Generating More Safe Income Than You Ever Thought Possible

These days, most of the old income-generating standbys are downright ridiculous...

Banks paying less than 1%... five-year CDs returning 1.5% or 2% at best... and 10-year Treasuries yielding around 2.6%...

With inflation at 1.7% – and that’s the “official” rate – you’re barely breaking even, if not actually losing money with those sorry returns.

Meanwhile... in the United States, two-thirds of baby boomers report they want to continue working beyond age 65, according to a recent survey by the Transamerica Center for Retirement Studies.

Now, here’s the thing...

Many of those 76 MILLION boomers will be competing for a handful of good side jobs... and will likely wind up accepting the not-so-good ones...

Then you’ve got worries about pension plans going broke... Social Security on the brink of disaster... not to mention soaring healthcare costs.

Sadly, I know of way, way too many personal stories of folks who were once six-figure business executives...

And now they’re performing manual labor... well into their retirement years... just to get by.

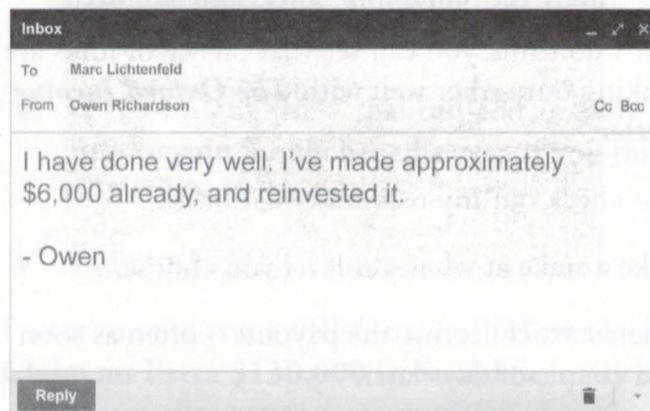

That’s no way to enjoy your golden years!

But with my *Oxford Income Letter*, you’ll discover how you could get paid more frequently than if you put time into any sort of side job or part-time business.

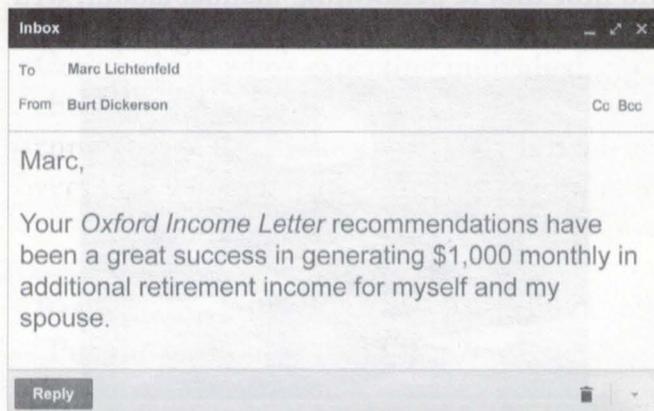

My goal is to give pre-retirees and retirees a genuine chance at collecting safe and ever-increasing income, month after month, year after year.

And judging from the feedback I’ve been getting, it’s working quite well.

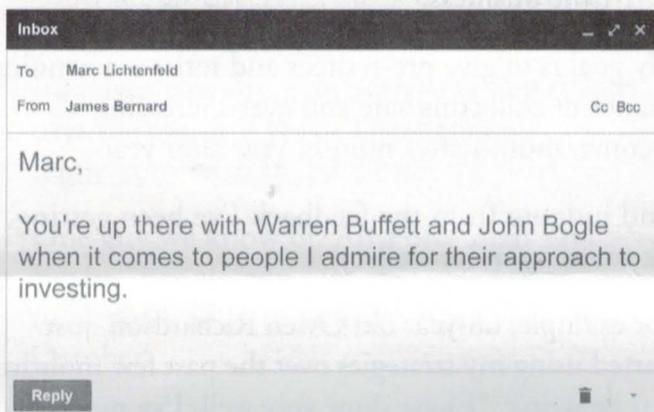

For example, 68-year old Owen Richardson just started using my strategies over the past few months. But he writes, “I have done very well. **I’ve made approximately \$6,000 already**, and reinvested it.”

Burt Dickerson, a retired engineer from Calgary, says my *Oxford Income Letter* recommendations “have been a great success in **generating \$1,000 monthly in additional retirement income** for myself and my spouse.”

And James Bernard emailed and said, “You’re up there with Warren Buffett and John Bogle when it comes to people I admire for their approach to investing.”

Well, I’m not sure if I’m a Warren Buffett...

But I do think you can see that plenty of folks are making out rather well with *The Oxford Income Letter*.

Just check out my recommendations...

Take a stake at whatever level you choose...

Then start collecting the payouts – often as soon as a couple of days later.

It really is that simple...

**New York man generated
“\$25,000 in the last
year alone.”**

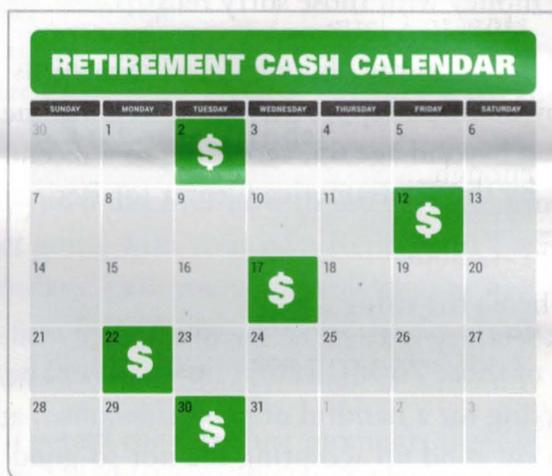

Kelly Breck, a 70-year-old retiree in Colorado , just wrote in to tell me she’s “done very well... I average about **\$18,000 a year.**”

I also got a note from Larry Victor the other day, from Long Island, New York. He reports, and I quote, “That I’m very comfortable with my investments. They generated **\$25,000 in the last year alone.**”

Even folks overseas are collecting these huge income payouts. Over in Holland, 54-year-old Stephan Ellifson sent me an email saying, quite simply, “I am making around **\$50,000 per year.**”

You can join them today...

And start collecting your first monthly checks from your own Retirement Cash Calendar literally days from now.

It’s all explained in my FREE special report “**Start Collecting Weekly Payouts With the Retirement Cash Calendar.**”

When you take a trial subscription to *The Oxford Income Letter*, we’ll show you how you can get started immediately.

Better yet, we'll also send you breaking intelligence on a second extraordinary opportunity I've found...

I don't want you to collect **"just"** the Retirement Cash Calendar payouts.

You see, there's actually a way to squeeze even more money out of the income you're on track to receive from Uncle Sam.

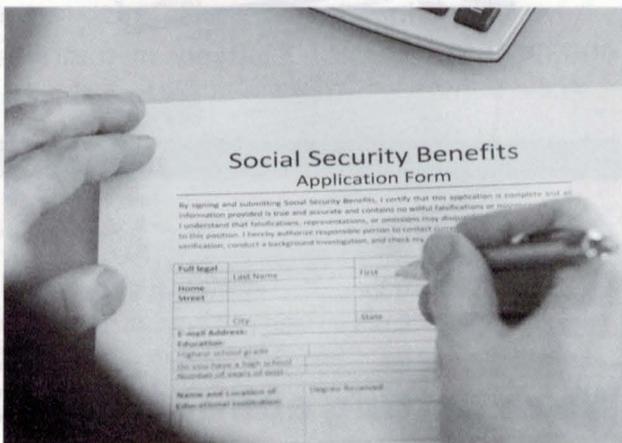

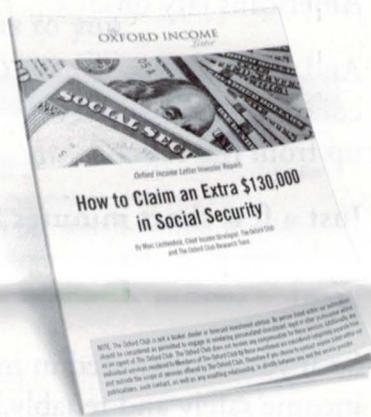

How to Claim an Extra \$130,000 in Social Security

After talking with hundreds of retirees, I've found way too many are leaving TONS of easy cash on the table.

That's why I've personally created a full-length report called **"How to Claim an Extra \$130,000 in Social Security."**

Oddly enough... (and you probably won't hear about this anywhere else)...

Social Security is actually one of the easiest places where you can quickly and easily increase your income...

And it's important to get into position even if you're not yet collecting from Uncle Sam.

Oh sure... Social Security makes all its information free for anyone to search for on its website...

But the real key is knowing where to look amidst the mind-boggling 2,700 rules governing Social Security.

Yes, I said 2,700 different rules!

A typical couple has as many as 567 different filing options. It's insane.

So that's exactly why my research team and I have done all the heavy lifting for you.

My report covers *EVERYTHING* you need to know about claiming the greatest amount of money possible from Social Security, including...

- ✓ How you could collect more than \$3,000 every single month – at least 2.8 times the national average – for the rest of your life...
- ✓ Five common mistakes that, over a lifetime, could cause you to leave more than \$130,000 in Social Security benefits on the table...
- ✓ A clever (but perfectly legal) strategy for collecting Social Security that can also help slash one especially "annoying" tax right down to the bone...
- ✓ A "15-minute trick" that can add an extra 50% to your family benefits even if you think you're already maxed out...
- ✓ And much, MUCH more.

I want to send you a FREE copy of **"How to Claim an Extra \$130,000 in Social Security"** today.

The same goes for the Retirement Cash Calendar. I'll give that to you for free today as well.

It's all yours, at no charge, with your trial subscription to my ***Oxford Income Letter***.

Here's how my service is going to work for you...

A Continuous Stream of Fresh, Well-Researched, Income-Gushing Investments

Every month, I dig through hundreds of potential income opportunities.

I've got a couple of research "geeks" that spend essentially their whole lives working on this stuff for my *Oxford Income Letter*. (And they love every minute of it.)

My team and I use computer-based analysis and statistical modeling... We drill down into fundamentals...

And we wind up with just a handful of companies that have passed our initial cut.

But we don't stop there.

Next, I screen them even further with my special "Cash Flow Indicator," or CFI, as I call it.

Now, I don't want to get into too much technical mumbo jumbo...

But the CFI tells me everything I need to know about a company's current – and more importantly, future – cash positions.

Does this company produce mountains of pure cash? And will it be able to produce all that cash going into the future?

Because here's the truth...

You can talk all you want about increasing earnings, fantastic stock stories and potential game-changing breakthroughs.

But in business, CASH is still king.

And only when one of the more than 43,000 companies passes every one of my tests will I recommend it to you.

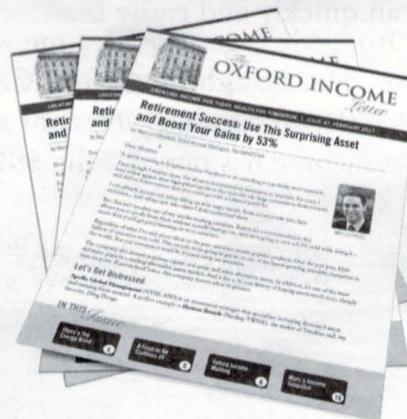

What this does is create a situation where you can collect far more passive income than you could with the dreary old standbys most other Americans rely on...

And with my Retirement Cash Calendar, you can collect a "paycheck" every week without getting up from the couch.

Just a few short minutes from now, you could be locking in the next payments for your new income stream.

So if you're interested in massively upping your income safely and reliably... Then I invite you to take a subscription to *The Oxford Income Letter* today.

"We're getting about \$95,000 a year from your picks"

So how much would you expect to pay annually

for this kind of proprietary intelligence...

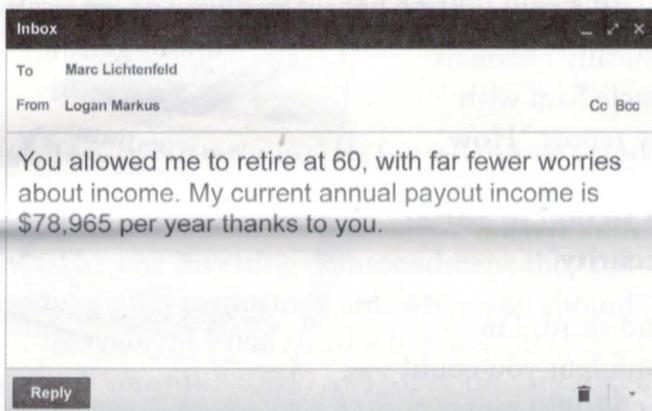

For month after month of expertly researched income recommendations that no one else in the world is privy to?

\$300? \$500? \$1,000?

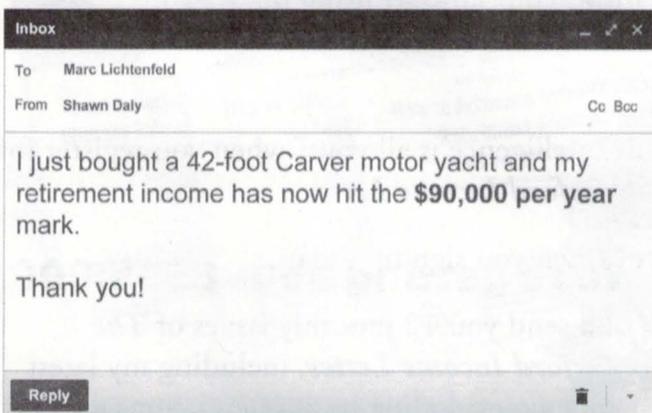

I think you'll be pleasantly surprised that **we're not asking for anything even close to that.**

Remember, folks who have followed my recommendations in the past are very glad they did...

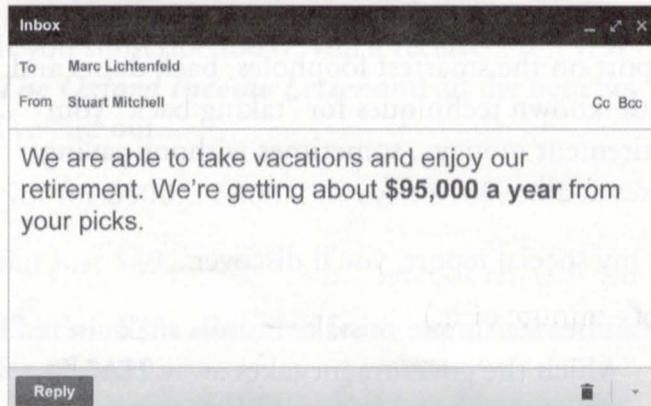

Like Logan Markus who wrote, "You allowed me to retire at 60, with far fewer worries about income. My current annual **payout income is \$78,965 per year thanks to you.**"

Shawn Daly from Michigan emailed me with big news, literally. "**Just bought a 42-foot Carver motor yacht.**" Shawn also happily reported that his retirement income has now hit the **\$90,000 per year** mark.

Then there's retired electrical contractor Stuart Mitchell. He wrote, "We are able to take vacations and enjoy our retirement. We're getting **about \$95,000 a year** from your picks."

You can see why signing up today for *The Oxford Income Letter* is a no-brainer.

Yet there are even more cash-generating benefits you'll receive the moment you join us.

Because not only do I want you to earn more income...

But I want you to *keep* more of what you deserve.

How to Achieve a Seven-Figure Retirement Account... Even if You Think It's Too Late

Most people have their retirement funds tied up in IRAs, 401(k)s or Roth IRAs.

Now, you'd think getting your money out would be easy.

But unfortunately, it's not. Just like Social Security, these are government programs... and that means (surprise!)... they're *ridiculously* complicated.

I mean, really... You're finally ready to take it easy...

And suddenly, you've got to go through all these insane gyrations just to figure out *how much*

cash to withdraw at *which time* and from *which account*. One false move and you'll get killed by high taxes. Tapping into your own hard-earned savings and investments shouldn't be this difficult.

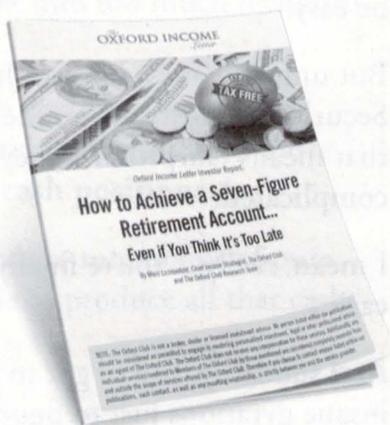

That's why my team and I have put together a report on the smartest loopholes, back doors and little-known techniques for "taking back" your retirement money... sometimes without paying taxes at all.

In my special report, you'll discover...

- ✓ The one simple mistake retirees make in which the government takes away HALF their retirement income (and how to avoid it)...
- ✓ How to lock in the extra \$1,000 annual "bonus" from the IRS this year...
- ✓ Why investing in your IRA/401(k) right before the April 15 deadline is the worst investing decision you could make...
- ✓ How to set up your retirement plan so you can take out money without paying a single dime in taxes...
- ✓ The right way to roll over a retirement plan... (Do it wrong and expect a huge tax bill!)
- ✓ And much, MUCH more.

It's all written up in our FREE report called **"How to Achieve a Seven-Figure Retirement Account... Even if You Think It's Too Late."**

You'll get it sent to your inbox as soon as we've processed your subscription. Order online and it will be moments from now.

So let's recap these first three benefits you're about to receive as an **Oxford Income Letter** subscriber...

Collect Your First New Income Payouts Less Than 30 Days From Now

Your free Perfect Retirement Business kit will make it simple to take your wealth-building to a whole new level... while it runs virtually on autopilot.

First in the kit, you're going to get the **regularly scheduled payout opportunities** from my Retirement Cash Calendar...

Second, you're going to discover how to ethically outsmart Uncle Sam with my report **"How to Claim an Extra \$130,000 in Social Security" ...**

And third, I'm confident you could get \$1,000 more in cash with my backdoor play on retirement accounts.

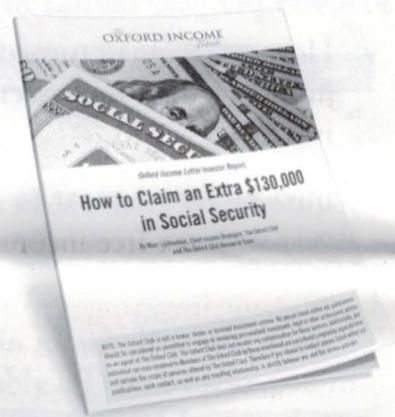

All three reports are included free in the kit we'd like to rush you today.

With it, you can start using these recommendations to generate enormous, safe income...

This intelligence is all yours when you register for **The Oxford Income Letter**.

And when you sign up today...

- ✓ I'll send you 12 monthly issues of **The Oxford Income Letter**, including my latest income-exploding recommendations and all

my proprietary plays to get started with your Retirement Cash Calendar...

- ✓ You'll also get issues of **Oxford Income Weekly**, featuring updates on our current recommendations...
- ✓ Whenever needed, I'll rush you **Oxford Income Blasts**, short but explosive emails featuring new recommendations and opportunities so urgent, they cannot wait...
- ✓ And along the way, you'll receive additional special reports as I complete them.

Plus, you'll gain full access to my archived research, featuring dozens more of my powerful income-generating secrets, such as...

- ✓ How one woman turned \$5,000 into \$20 million – the simple secret for perpetually increasing yields...
- ✓ How to save thousands for retirement each year with tax-free income...
- ✓ The one investing commandment they tell you to never break... and when you should break it...

And still much, much more...

With all of this... you could collect thousands more in income... and get started making as much as an extra \$54,000 this year.

If you subscribe today, you'll receive a full year of **The Oxford Income Letter** and all the benefits I've laid out...

Not for \$500... \$300... or even \$100...

But just \$49.

That's a 62% discount from our usual annual fee of \$129.

At \$49, that's less than the cost of a restaurant dinner for two.

So if you're interested in collecting much more income – safely – then I invite you to take a look at **The Oxford Income Letter**.

Just fill out the form included to get started. You'll be able to review everything we've talked about BEFORE you make any decision.

With **The Oxford Income Letter**, you won't have to worry about finding the best income plays on

your own anymore... or live in constant fear of running out of money in retirement.

But here's the thing...

Try Us Out for Three Full Months... and THEN Decide

I'm extremely bullish on these opportunities, so I urge you to check them out today.

And I've got plenty more juicy income generators lined up.

After you register, I'd like you to **take the next 90 days to decide whether or not you want to keep your subscription.**

Personally, I'm quite confident you'll be eager to stay on. But just to be sure, you should take the full three months to look us over.

That should give you plenty of time to see my work firsthand...

To try out these recommendations for yourself... on paper or with your own live Retirement Cash Calendar...

RETIREMENT CASH CALENDAR						
SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
30	1	\$	3	4	5	6
7	8	9	10	11	12 \$	13
14	15	16	17 \$	18	19	20
21	22 \$	23	24	25	26	27
28	29	30 \$	31	1	2	3

And if you decide at any point that it isn't perfect for you – and I don't mean merely right, but PERFECT – just let me know.

We'll cancel your subscription **and refund 100% of your money.**

But now is the time to act.

The sooner you get going, the sooner you could start collecting weekly income payouts just days from now... and for the rest of your life.

Here's how confident I am in this type of strategy...

I use it for *my own* retirement portfolio... and I'm using it for *my kids' funds* too.

So please, don't you miss out.

To activate your subscription, please fill out the form on the following page.

You'll be able to **review everything** we've talked about BEFORE you make any decision.
