

YOU MUST BE OVER 21

Behind Closed Doors: A Marriage Manual of Over 1500 Photographs is not intended for children. It is published for married adults. You must be over 21 to buy it.

Here is the introduction to **Behind Closed Doors: A Marriage Manual of Over 1500 Photographs**, written by Doctors Phyllis and Eberhard Kronhausen, the world-renowned sexual psychologists:

“We have been psychologists and sexual counselors all of our professional lives, but *NEVER*, in over 20 years, have we come across a set of photographs as lyrical, sexy, instructive and potentially helpful as those in this book.

They show a young couple in various acts of lovemaking.

The photographs are clear, as sex-educational pictures ought to be; unambiguous representations of human sexual activity. Photographer Robin Schwartz's camera never blinks, and her photography is artistic, masterful.

Yet the photographs in **Behind Closed Doors**, for all their frankness, are never crude or vulgar. They scrupulously maintain highest standards of good taste, even when dealing with the most intimate aspects of lovemaking.

The married couple in the 1500-plus pictures in this book no doubt helped to inspire the photographer. Their consuming love for each other radiates from each frame. The pictures show not only thrilling relations but a thrilling relationSHIP.

In this set of 1500 photographs, sex has become a means of total communication between two sensitive individuals—a rare phenomenon. The couple, whose names are Gisele and Pierre, are so uninhibited and joyous that the reader does not feel like an ‘intruder.’ The couple is completely un-selfconscious.

From a sex counselor's point of view, these photos are important for still another reason: Not only is the couple beautifully uninhibited and enthusiastic in their lovemaking;

they are also unusually inventive.

How many couples, even newlyweds, are even half as inspired and resourceful in their lovemaking? How many times have we, as psychologists and sex counselors, heard the complaints of couples about sexual boredom and loss of interest in sexual activity even on the part of recently married couples? For all such couples this picture book can be a treasure and guide, a source of invaluable therapeutic help. The fact that these pictures demonstrate amazing variety without the slightest hint of ‘perversion,’ ‘kinkiness,’ or ‘deviation’ makes the book even more unusual.

Thus, this is the *CONSUMMATE* pictorial sex manual. It is art and education—at once.

We hope millions of couples throughout the world, no matter what their language, will be able to benefit from these informative pictures which, without need for a single word of explanation or caption, provide a complete sex education.

Behind Closed Doors is truly visual sex education at its best.™

Behind Closed Doors, 224 pages, is *MAMMOTH*, each page 115 square inches. The volume is *CASE*bound. To order, use coupon below. You must be over 21.
