Dear Reader,

The information I'm about to share with you is *not* common knowledge.

It's actually been a carefully kept secret for years.

But not anymore...

Because today I'm going to unveil the methods that thousands of people use to generate almost effortless income... *Instantly* in many cases.

Allowing them to get the absolute most out of their lives.

Regardless of their age, ability, or financial status.

In the next few pages, you'll see **47 income secrets** that the wealthy use to build their income and wealth automatically.

All of which YOU can now start using instantly to begin building the kind of income for life that ensures TRUE financial freedom.

So if steady, predictable income (as well as a few nice, quick windfalls) sounds good to you...

If it would enable you to **stop worrying about outliving your money...**

And allow you to finally enjoy the type of life you've always dreamed of...

You've come to the right place.

Because I have a brand-new book that will tell you exactly how to do that.

It's called **THE BIG BOOK OF INCOME**, and I want to send you a copy **ABSOLUTELY FREE**.

I'll tell you exactly why in a moment.

But first, here's a little sample of what you'll find inside...

- **A single word you can effectively put on your Social Security application to increase your benefits by as much as \$570 per month.**

While I'm not affiliated with the Social Security Administration, there's a method often written about by Boston University professor Laurence Kotlikoff that only 2% of Americans take advantage of. This information comes straight from free sources within the Social Security Administration that are available to the public, but **for those about to retire, it's the most powerful way to increase your income on this list.** See page 149.

- **How to legally beat the IRS and claim half of a year's salary from the Federal Government when you retire.** In the past, only the savviest of accountants were able to pull this maneuver off. However, with current technology, just about anyone can do it in just a few hours. Page 153.

- **How to become a "digital landlord" and earn "backdoor rental income" without maintaining or managing a single property!** Based on a law enacted during Eisenhower's presidency that was recently updated for the digital age, this strategy allows everyday Americans to earn income thanks to rental properties — without any of the responsibilities of a regular landlord! It can be a much more profitable way to make money on real estate. No wonder thousands of Americans have already taken advantage of it. What's stopping YOU? See page 7 to start today.

As you can see, getting the income you want and need in life is MUCH easier than most people think.

Because it doesn't require a second job...

And you don't have to sacrifice the things you love just to save a few dollars.

Yet I'd wager not one in 10,000 Americans knows about these secrets.

Such as...

Get paid every time your song gets played on the radio! This unusual website allows you to collect royalty payments every time your favorite song is played on the radio. Some lucky folks collect thousands of dollars a year! See page 139.

The professional sports-related secret that is key to surviving a recession. Find out what a professional football team has to do with a type of investment that won't lose value, even in a recession. Get up to 50% returns with ZERO possible downside. Page 125.

How to legally rob banks. The phrase on page 169 forces banks to hand over money. They won't be pleased when you say it, but you're perfectly within your rights. And you'll be the richer for it.

I know how little-known these secrets are, because it was once *my job* to keep them a secret.

How I Became "Mr. Income"...

My name, by the way, is Zachary Scheidt.

I started my career at a hedge fund in Atlanta, helping "high net worth" individuals generate income from their multimillion-dollar accounts.

This type of work is VERY lucrative. But helping the rich get richer is not very gratifying.

It made me sick.

Instead, I wanted to use my skills to help actual, hard-working people generate income quickly and easily...

So about four years back, I decided to change gears a bit...

I took a position with an independent financial research firm in Baltimore, Maryland, helping people generate new income streams.

And I haven't looked back since.

Being able to spend more time with my wife and 7 children is a true blessing.

But that's not the only upside.

What really moves me is hearing about the GREAT ways people can actually use these new income streams.

Paying their mortgages... Taking beautiful vacations...

Even quitting their jobs for good...

To me, income is simple.

I've been in the business of creating it for so long it's almost second nature. But to others it's like some foreign language... And it's not their fault. It isn't taught in schools.

These are secrets that only circulate by word of mouth.

Secrets like this:

- **Collect \$5,233.85 this year with this little-known "billionaire trick."** This technique is possible thanks to one of the greatest investors to ever live... and it's so simple all you need to do is look at a single webpage. You could be doing this in minutes. It's amazing more people don't take advantage of it. *Page 135.*
- **Own a digital gold mine.** This company has found a way to get gold for half the price everyone else pays, and you're entitled to a portion of their outlandish profits. Find out how to stake your claim on *page 41.*
- **How the 1% are actually PROFITING thanks to Obamacare.** You probably know what Obamacare has done to your annual taxes. But I'll bet you didn't know there's a way to make money because of it. The best part is you don't even need to sign up. *Get the scoop on page 17.*

And through my years of experience, I can tell you one thing...

Income Is the Absolute Key to a Successful Retirement

I'm not talking about second-job or working-at-Target-after-you-retire income.

It's much simpler than that, and I'm going to show you how.

All you have to do is tap into multiple sources of income.

Then you can spend your retirement however you want...

Traveling the world, staying in nice hotels and never worrying about the financial security of you or your family again.

Now, I don't want to scare you...

But if you don't plan well — or never even make a plan

— you could spend your retirement cooped up in your house...

Watching reruns on the television...

Scrounging for change to buy your grandkids birthday presents...

Nobody wants that.

Instead, I want my fellow Americans to live the retirement they have always dreamed of.

What have you always wanted in YOUR retirement?

To buy a three-bedroom cabin in the woods? To stay in your bathrobe until noon? Or perhaps just to ensure your children are set for *life*?

With my free book, I'll show you how all of that's possible and much more.

For example, imagine being able to use:

The Secret Behind America's Richest Zip Code

Chances are, you've never heard of the "Quincy Millionaires"...

But 30 minutes outside of Tallahassee, there were MORE millionaires per capita than anywhere else in America.

Comparatively more than New York, Los Angeles, San Francisco and Miami...

But this is no retirement community for the wealthy... The surrounding county is run-down, poverty stricken, and lowly educated... Filled with grungy trailer parks and beat-down buildings.

But not Quincy — it shines like a diamond in the rough... With Victorian mansions, white picket fences, and nicely tended lawns.

And hard work isn't their secret. They're probably the richest farmers that NEVER actually had to farm. The Quincies didn't accumulate their fortune through anything you'd assume. Like real estate investments... They didn't strike gold, oil, or anything like that really.

They owe their entire mound of wealth to their local banker, Pat Munroe...

Several years ago, he dropped a hint on what he believed was the ONLY "recession-proof" way to generate income.

He noticed that no matter what the state of the economy, people would always buy one thing.

I guess you could call his secret an "investment" plan...

Even though they hardly had to invest anything.

It cost the Quincies just \$40 to get started and it required no physical work or complicated paperwork.

At the end of the day, they ended up with a huge *passive income* stream.

To the tune of millions.

Now that may be ridiculous... Certainly hard to believe at first, but let me explain...

This income "loophole" "officially" opened in the 1960s. But the SEC has banned several organizations from advertising it.

(Leave it to our government to keep you in the dark.)

That's why you've never heard about this on the news... or in any popular mediums. It's flat out illegal for companies to reach out. But it's not illegal or unethical for you to take advantage of it!

Now, I'm not guaranteeing you're going to make a million dollars using this secret. But, *you certainly* can easily make a nice chunk of change.

Even better, I'm going to show you exactly how you could be using this "Quincy Secret" TODAY to guarantee yourself **automatic income payments**.

Just think for a minute.

If these farmers can live luxury lifestyles in Florida's poorest county...

Imagine what this technique could do for you...

On page 131 of ***THE BIG BOOK OF INCOME***, you'll find the Quincies' secret.

And better yet, you'll learn exactly how to use it.

Here's another secret from the book I bet only one in 10,000 Americans know.

Every Month, You Can Have a 1/10 oz. Gold Coin Shipped to Your Home — Without Paying a Dime of Your Own Money

Here's how...

In 2004, Congress passed a law that inadvertently allows Americans to claim free gold from the largest miners in Canada.

Surprisingly, very few people know about this incredible way to add thousands of dollars to their retirement portfolio.

Page 4

None of my friends or co-workers had heard of this law when I brought it up to them over a year ago.

However, I was able to find a few folks online who were already taking advantage.

Here's what one of the individuals I found, Kevin Strauss, had to say...

"I'm pulling in about 1.5 ounces a month on average!" Equivalent to \$1,800.

Anne Kennedy said... "This is almost too easy to be real."

Another reader, Jerry Lang, exclaimed... "Within two months I had over 3.5 ounces." Over \$4,000 worth.

So how do you get started claiming your free gold? Or, if you don't want gold, the equivalent in cold, hard cash?

Well, it's easy... all you need is a computer. And I'll show you how to do the rest. It's all VERY SIMPLY explained on page 99.

Want a few more ways to get valuable free stuff?

You'll find them in the pages of ***THE BIG BOOK OF INCOME***.

For example...

- **Get free electronics and household goods — PLUS a "rebate."** You walk into the store, get what you need for free, then receive a check for doing so! Amazing! Step-by-step instructions on page 193.
- **Get a 2.0% "contribution match" through your BROKER on your 401(k).** Employee matching isn't the only way to beef up your retirement account. Page 105 reveals how most brokers will help you effectively match your own returns as well. (The secret is in the fine print on your 401(k) instructions that most of us skip over.)
- **Free gold at the grocery store!** On page 163, I reveal how to find FREE GOLD in one aisle found in your local grocery store — anything from a few grams up to an ounce. You'll love this treasure hunt!

Earn Over \$1,200 a Month With This Homeowner' Income Loophole

A few weeks ago, I showed my parents how to earn over \$1,200 a month through an amazing "homeowner's income loophole."

The state governments are working hard to shut this one down because they realize how much some people will profit.

So the window on this one is tight, but there is still time.

It has nothing to do with welfare or tax rebates...

It's an extraordinary way to earn a steady stream of income using nothing but your house.

All you need to do is to visit a certain website (you'll find it on page 59 of *THE BIG BOOK OF INCOME*) to find out if you qualify.

It's just one of the many income tricks Americans can take advantage of!

Not surprisingly, most people haven't heard about these lucrative ways to generate income.

Many of them are only spoken about in special circles for those "in the know."

But if you would like to know them all... to have every one of them right at your fingertips...

Then This FREE Book Could Literally Change Your Life...

You can only claim *THE BIG BOOK OF INCOME* right here, right now — and it's available only to you for FREE for reasons I will reveal in just a minute.

THE BIG BOOK OF INCOME is chock-full of proven tricks, loopholes, and insider secrets to living a higher-quality, wealthier, and more successful life.

Listen, I don't know what your dream retirement is.

Maybe it's sitting at home all day with a great home theater system. Maybe it's traveling to Paris. Or perhaps it's exploring the Amazon jungle.

But here's one thing I do know: Living well in retirement takes money.

More than most people think.

So doesn't it make sense to discover how thousands of people like yourself are generating the income they need and want automatically...

So checks show up in the mailbox like clockwork?

Of course it does! And it's so easy when you have strategies like these working for you...

- **How to earn a royalty with the help of nearly every major financial transaction in the world!** Sounds incredible but it's true. A nondescript building located in Secaucus, New Jersey, holds the servers to the New York Stock Exchange, NASDAQ, and almost every bank on Wall Street. Trillions of dollars flow through its walls every day, and, believe it or not, YOU can actually claim a small percentage of those funds. *Page 23 reveals how.*
- **Get 12 times more interest.** This unique bank offers rates of return 12 times higher than virtually any other bank for savings and checking accounts. Best of all, you can sign up through your local branch with this form. *See page 145.*
- **Make \$35 an hour walking on the beach.** No, this isn't metal detecting, lifeguarding, cleaning trash or anything like that. In fact, it doesn't even have to be on the beach. No wonder 65,000 people like you are doing it wherever they want... getting paid while in the park, in the street, and even in their own homes. *See page 69.*
- **Generate income by becoming a "beneficiary" of Thomas Edison.** Everyone knows Edison as the inventor of the light bulb, but few people know he's responsible for a 127-year-old "royalty stream" that anyone can tap into! *See page 53* on how to earn hundreds of additional dollars a year.
- **How to own a yacht for FREE.** Maybe you've never thought about owning a yacht. But what if I could show you how to own one and never have to make a payment out of your own funds! If you love the ocean but never thought you could afford to sail it in your own boat, you'll want to *see page 175.*

Imagine — you scroll through your emails, and make a quick \$191 with a few clicks you'll learn about on page 99.

Fast forward to the afternoon, when you receive an email that your \$147 bonus check was deposited into your account, thanks to the "enrollment" advice on page 131.

And then in the evening you get a message from your bank...

Another \$275 has hit your account due to the unusual yet lucrative technique you'll read about on page 83.

You had forgot it was even coming... probably because it was all so easy to claim.

Before you go to bed again you tally everything up...

- **\$191...**
- **\$147...**
- **\$275...**
- **A total of \$613.**

Keep it up just on weekdays and that's over \$2,500 a week...

Or well over \$100,000 every year.

The world is your oyster when you have income for LIFE.

Get Secret Travel Cash and See the World for Pennies on the Dollar

Love to travel, but hate paying full price?

Then you'll *LOVE* this...

Just a little while ago, my colleague took a luxury vacation to Central America.

Each morning, he woke up to the most breathtaking view of the Andes...

Something you only see on a postcard.

Here's a picture from a villa near where he stayed.

The real kicker?

The entire trip cost him less than **\$200**.

What was the catch?

All he had to do was use the "secret travel cash" he claimed a few months before he left.

"Secret travel cash" is 100% legal and surprisingly easy to get.

It's actually a little-known incentive given by a famous US corporation that can be used to travel the world.

Whether it is purchasing flights, hotels, or taking taxis to you next destination.

I'll show you how to find this "secret travel cash" on page 73.

Visiting Central America had always been my colleague's dream. And seeing it at such a low price tag made it that much sweeter.

But where have YOU always wanted to go? I'm not going to guarantee that you can get there for \$200 on the dot. It could be more. It might even be less.

But by using this strategy, I'll guarantee you can get there for a bargain.

This hidden travel account is my favorite way to travel the world for a fraction of the price.

While traveling for virtually nothing is great, it's not the most lucrative loophole in the book by any means.

The tips below could give you hold-in-your-hands cash to use when you want, for what you want.

For example, you'll also discover...

- **How to claim a \$152 Hanukkah check — even if you aren't Jewish.** It isn't common knowledge but the largest producer of Christmas toys was founded by a family with Jewish origins and gives back millions of dollars to those in the know each year. *Page 49* explains how to be included in their beneficence. Mazel tov!
- **Get paid for backing the US military!** A few well-known companies will actually pay you when you support our troops. The checks can add up to a couple hundred dollars a year, so why not sign up and do good for yourself while you do good for our troops? Find all the details on *page 27*.
- **How to win in casinos.** Most people know that casinos stack the odds against you. But what if they didn't?! Discover the one and only game where the odds are in YOUR favor. Nothing to do with counting cards or anything illegal! In fact, the casinos will LOVE you! *See page 179* for the whole story.
- **Make up to \$275 at your local university... in just a few hours!** Would you like to make a few hundred dollars just for spending the afternoon on a beautiful campus? These positions are offered all over the US. I'll show you how easy it is to find them on *page 83*.

When putting together ***THE BIG BOOK OF INCOME***, I set out to prove one thing...

Living the life you want doesn't have to involve any enormous sacrifices...

Or working any harder.

All it takes is working SMARTER.

That's why I've arranged to send you a copy of ***THE BIG BOOK OF INCOME*** at virtually no cost, as I'll explain in a moment.

But first, I needed to set the record straight about something that really makes me angry.

The best advice the government and so many others have to give when people find themselves squeezed in retirement is: Spend less.

Look, you just spent the last 35 years of your life working your tail off.

And now you're supposed to live like a college student on financial aid?

You deserve MUCH better than that.

You should be living carefree and enjoying everything life has to offer — without worrying about every expense and whether you're going to outlive your money.

And THAT, my friend, is why I want to send you a free copy of my new book — ***THE BIG BOOK OF INCOME***.

With this book, you will be able to generate anywhere from a few hundred dollars a month up to a thousand dollars a week.

It doesn't matter how much you've saved.

Or what your balance sheet looks like.

All that matters is how much you're willing to make.

With these income secrets, you'll be able to set up as many reliable income streams as you want.

So there's no worrying about when to retire.

Or pinching pennies when you do.

This Is One Small Catch... Which I Think You'll REALLY LIKE!

One of the reasons I want to send you a free copy of ***THE BIG BOOK OF INCOME*** is that it gives me a chance to introduce you to (show off, actually) my monthly research advisory: ***Lifetime Income Report***.

In fact, I want to send you a No-Risk Trial Membership to ***Lifetime Income Report*** advisory letter, which will enable me to provide you with research on the absolute best possible income-producing investments during the rapidly changing times ahead.

The world is changing quickly — and not just politically. More and more new technologies and ideas are entering the marketplace every day, creating unique NEW opportunities to create MORE wealth with LESS work.

But how do you keep up to date with all the latest opportunities — as well as any threats to your wealth or income that may emerge?

Well, that's why I publish this very special monthly advisory.

Every month, ***Lifetime Income Report*** gives you the inside scoop on how to collect income like the rich — putting you far ahead of everyone else — regardless of your current financial situation, no matter who's in the White House, and whether the stock market goes up, down or sideways.

It's like having a full team of financial researchers by your side, showing you how to make every move... assuring you opportunities to collect the income that will give you the kind of carefree retirement you want and deserve.

The goal of ***Lifetime Income Report*** is simple... To get you paid reliable income, month after month, that rolls in like clockwork.

Because I Only Have 450 Copies Set Aside Today

I'm sure it makes sense...

I wanted you to have an actual PHYSICAL copy of my book — not some digital download buried on your computer somewhere.

This is a book you'll want at your FINGERTIPS.

But physically printing books isn't cheap. That's why I only have a limited number of copies set aside for today.

Our books usually run out pretty quickly.

And when they're gone, they're gone.

If you catch us at a particularly bad time, in between printings, you may have to wait up to a month.

But I want these special techniques to get into as many of the RIGHT hands as possible.

Because ***THE BIG BOOK OF INCOME*** is full of ideas, tricks, and loopholes that would take you weeks, maybe even MONTHS to uncover on your own.

So please, I urge you to act quickly to secure your copy and start making that extra income you want and deserve.

THE BIG BOOK OF INCOME Isn't for Everyone...

We're looking for active, take-charge types who will make good use of our hard work.

Not those who will just let this book gather dust and go to waste.

Here's why I'm telling you this...

Everyone out there is promising you ways to get rich quick, with no effort on your part.

And there's a sucker born every minute that will fall for the hype.

I'm not going to promise that you'll make millions of dollars just by following my strategies.

Although there's a chance that you might.

But what I WILL promise you is realistic, practical, usable techniques.

The kind you and your family can use to start generating more extra income than you ever imagined possible — starting virtually overnight.

But it's up to you to make those things a reality.

Here's What to Do Next...

Find the No-Risk Membership form on the last page of this letter. Call, go online or mail it in to reserve your copy of ***The Big Book of Income*** today.

As soon as you receive your book in the mail, immediately open the package, crack open your new book, get a good whiff of the freshly printed pages.
